AT SEA

NOON POSITION

Latitude: 15° 30.0' N
 Longitude: 145° 20.5' E
 Avg Speed: 12.37 Kts
 Distance to Go: 1, 268.0 NM

WEATHER FORECAST

We will be influenced by the Easterly Trades for at least the next day or two. As we move north they will have less influence on our weather. Isolated showers and thunderstorms will continue. Combined seas and swell will be out of the East cresting around 8ft. Winds will be out of the East at 20kts or less. Overall weather pattern will be changing 3 days out. We have reached a max sea temperature of 86F and it should decline as we move further north. Keep checking the forecast for updates.
 Cadet Collie and Cadet Gloeckner

Attention All Hands

Laundry rooms will be reopened at 0600 tomorrow, June 23rd in order to conserve water.

Emergency Drill

Drills will be held tomorrow after quarters.

Emergency Drill Pre-Brief/De-Brief

- 1830 tonight Thursday July 22nd, Maury Classroom
- All EOS firefighters, all E Squad 1 & 2, Cadet PIC's and OPIC's **must** attend.
- 1830 Friday evening – Drill Debrief
 - Same cadets
 - Same place
 - Same time

Wikipedia

A mirror of the English Wikipedia is now available on the ship at <http://goldenbear/wiki> Plenty of information on Japan and Korea is available there (however no pictures) in addition to the excellent information already available on Moodle. If you

experience any issue please contact IT support at x1826.

Lost

- Black Western Digital external hard drive. A reward is offered to the finder. If found please return to Cadet Hedrick, rm. LB2.

Found

- Diesel Engines, Third Edition by AJ Wharton. See Commandant to claim.

MARITIME TRIVIA QUESTION FOR THE DAY

What does the day shape to the right mean?

See Assistant Commandant Buck if you think you know the answer.

Previous Question and Answer

- A) Where is the ship's flinders bar located?
- B) What is a flinders bar?
- C) How did flinders bar come to be called flinders bar?
 - A. The flinders bar is located in the magnetic compass binnacle.
 - B. A flinders bar is a bar of soft iron placed in a vertical position at the side of the magnetic compass binnacle to neutralize the magnetic deviation due to induced magnetism.
 - C. The flinders bar was named after the British navigator Captain Matthew Flinders.
